Notice to Amend the Report of Facility Information
December 29, 2016

Introduction

The Sacramento County Environmental Management Department (EMD) is certified by the California Department of Resources, Recycling, and Recovery (CalRecycle) to act as the Local Enforcement Agency (LEA) within the Cities and County of Sacramento. The LEA issues permits and enforces state laws and regulations at solid waste facilities. Please be advised that the Sacramento County LEA received and approved a Report of Facility Information (RFI) Amendment to the Solid Waste Facility Permit for Sierra Waste Recycling and Transfer Station.

Description of project and LEA's determination

Sierra Waste Recycling and Transfer Station is a large volume transfer station located at 8260 Berry Avenue in Sacramento, CA 95828 (APN 040-0121-022-0000). On November 30, 2016, the LEA received an application package to amend the RFI, as follows:

- Addition of mulch processing and storage on-site.
- Updated site maps showing designated mulch storage area on-site.
- Outdated operator contact information and operator resume was removed and replaced with updated copies.

The LEA finds that the proposed change is consistent with all applicable certified and/or adopted California Environmental Quality Act (CEQA) documents, is consistent with the State Minimum Standards contained in Title 14 and Title 27 of the California Code of Regulations, and does not conflict with the terms and conditions in the current Solid Waste Facilities Permit. The LEA approved the amendment on December 29, 2016.
