Notice to Amend the Report of Facility Information  
August 15, 2016

**Introduction**

The Sacramento County Environmental Management Department (EMD) is certified by the California Department of Resources, Recycling, and Recovery (CalRecycle) to act as the Local Enforcement Agency (LEA) within the Cities and County of Sacramento. The LEA issues permits and enforces state laws and regulations at solid waste facilities. Please be advised that the Sacramento County LEA received and approved a Report of Facility Information (RFI) Amendment to the Solid Waste Facility Permit for Elder Creek Recovery and Transfer Station.

**Description of project and LEA's determination**

Elder Creek Recovery and Transfer Station is a large volume transfer station located at 8642 Elder Creek Rd in Sacramento, CA 95828 (APN 064-0020-008-0000). On August 2, 2016, the LEA received an application package to amend the RFI, as follows:

- A paragraph was added to section 3.1.4.4 to describe temperature monitoring measures for unprocessed and processed green waste stockpiles.
- A sentence was added to section 3.1.8 to include screening of inert material during load checking.

The LEA finds that the proposed change is consistent with all applicable certified and/or adopted California Environmental Quality Act (CEQA) documents, is consistent with the State Minimum Standards contained in Title 14 and Title 27 of the California Code of Regulations, and does not conflict with the terms and conditions in the current Solid Waste Facilities Permit. The LEA approved the amendment on August 15, 2016.

Written comments on the RFI Amendment can be sent to the Sacramento County Environmental Management Department, Attn: Will Scheffler REHS, 10590 Armstrong Ave., Suite A, Mather, CA 95655, or emailed to SchefflerW@saccounty.net.
