

Are you ready for Senate Bill 1383?

for edible food recovery specific requirements

PREPARE

Starting January 1, 2022, large commercial edible food generators are required to donate their excess edible food to food recovery organizations and/or food recovery services that would have otherwise been disposed.

COMPLY

Create contracts or written agreements with food recovery organizations and/or food recovery services to donate your business's excess edible food.

RECORDKEEPING

Maintain a copy of contracts or written agreements with food recovery organizations and/or food recovery services. Keep records of your food donation activities.

Help feed the most vulnerable communities in Sacramento while reducing methane emissions.

QUESTIONS?

Contact Environmental Management Department for more information at 916-875-8440 or emd.saccounty.gov

Save money by reducing waste and donating your excess edible food!
